PROFESSIONAL SUMMARY

Experienced Senior Front-End Developer with over a decade of commercial experience delivering high-performance, responsive e-commerce experiences. Recognised as a trusted technical lead within JD Outdoor's front-end team, with a strong track record of architecting shared template libraries, improving user journeys and delivering cross-brand UI solutions.

Following redundancy in April 2026, I have focused on modernising my technical skill set through hands-on development with React, Next.js and modern JavaScript tooling, building personal projects and a new portfolio alongside my established expertise in HTML, CSS, JavaScript and large-scale commercial front-end development.

TECHNICAL SKILLS

Front-End: JavaScript (ES6+), Typescript, React, Next.js, HTML5, CSS3, SASS, Tailwind CSS, jQuery, Wordpress

Back-End: Node.js, Express, PHP, MySQL, PostgreSQL, Prisma ORM

Tools & DevOps: VS Code, Git, GitHub, NPM, Docker

Testing & CRO: Jest, React Testing Library, Monetate (A/B Testing & Optimisation)

RECENT DEVELOPMENT & PROJECTS

React & Next.js development • Jan 2026 – Present

- Undertaking focused hands-on development with React, Next.js and modern Javascript following mass redundancy at JD Sports.
- Built and developed personal projects to apply component-based architecture, modern routing, responsive UI development and contemporary front-end workflows in practice.
- Created a new portfolio website (martynroberts.dev/) using modern front-end technologies to demonstrate continued technical progression.
- Continued to develop practical knowledge of the modern React ecosystem to build upon more than a decade of commercial front-end experience in usability, responsive design, maintainable code and large-scale web delivery.

PROFESSIONAL EXPERIENCE

Senior Front-End Developer • JD Outdoor Jul 2023 – Apr 2026 (Bury, Hybrid)

- Architected and implemented a new front-end framework for the department's e-commerce sites, establishing a unified shared template library and centralised asset collection.
- Successfully expanded the shared template system to support 7 major outdoor retail brands including GO Outdoors, Blacks, Millets, Ultimate Outdoors, Brasher, Eurohike, and Peter Storm.
- Developed and optimised a key in-store digital kiosk application to expand product availability and drive omni-channel conversion rates.

Front-End Web Developer • Blacks & Ultimate Outdoors Oct 2014 – Sep 2024

- Managed and optimised front-end delivery for both the Blacks and Ultimate Outdoors e-commerce platforms.
- Collaborated closely with the conversion rate optimisation (CRO) manager using Monetate to run A/B tests, streamline user journeys, and lift overall e-commerce conversion rates.
- Partnered with the internal digital marketing teams to design, code, and deploy highly engaging interactive campaign content.
- Maintained and developed the brand's e-commerce experience on the Aurora platform.
- Designed and built custom, fully responsive promotional landing pages and marketing email campaigns.

Front-End Web Developer • BANK Fashion Nov 2013 – Oct 2014

- Produced responsive, cross-browser compatible, and pixel-perfect landing pages and web assets in a fast-paced retail environment.
- Collaborated directly with graphic design teams to translate marketing mockups into clean, interactive front-end content.

Web Designer & Developer • Self-employed Jul 2011 – Nov 2013 (Ramsbottom)

- Provided independent design and development services using WordPress, custom PHP, and MySQL for small businesses in both the UK and New Zealand.

EARLY CAREER HISTORY AND EDUCATION

Web Content Editor • Xsortal Ltd Feb 2008 – Jul 2011

Data Administrator • CITV Dec 2005 – Feb 2008

BSc, Computing • University of Leeds Dec 2002 – 2005
