PROFESSIONAL SUMMARY

Experienced, results-driven Senior Front-End Developer with over a decade of experience delivering high performance, responsive e-commerce web experiences. Recognized as the trusted technical backbone of JD Outdoor's front-end team, with a proven track record of architecting shared template libraries, optimizing user journeys, and leading cross-brand UI developments. Passionate about creating elegant, user-friendly interfaces that drive engagement and conversions using React, Next.js, Vite, and modern CSS frameworks.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, SASS, Tailwind CSS, JavaScript (ES6+), React, Next.js, Wordpress, jQuery

Back-End: Node.js, Express, PHP, MySQL

Tools & DevOps: VS Code, Git, GitHub, NPM, Docker, Postman

Testing & CRO: Jest, React Testing Library, Monetate (A/B Testing & Optimization)

PROFESSIONAL EXPERIENCE

Senior Front-End Developer • JD Outdoor Jul 2023 – Present (Bury, Hybrid)

- Architected and implemented a new front-end framework for the department's e-commerce sites, establishing a unified shared template library and centralised asset collection.
- Successfully expanded the shared template system to support 7 major outdoor retail brands including GO Outdoors, Blacks, Millets, Ultimate Outdoors, Brasher, Eurohike, and Peter Storm.
- Developed and optimized a key in-store digital kiosk application to expand product availability and drive omni-channel conversion rates.

Front-End Web Developer • Blacks Outdoor Retail Limited Aug 2015 – Sep 2024

- Managed and optimised front-end delivery for both the Blacks and Ultimate Outdoors e-commerce platforms.
- Collaborated closely with the conversion rate optimization (CRO) manager using Monetate to run A/B tests, streamline user journeys, and lift overall e-commerce conversion rates.
- Partnered with the internal digital marketing teams to design, code, and deploy highly engaging interactive campaign content.

Front-End Web Developer • Ultimate Outdoors Oct 2014 – Sep 2024

- Maintained and developed the brand's e-commerce experience on the Aurora platform.
- Designed and built custom, fully responsive promotional landing pages and marketing email campaigns.

Front-End Web Developer • BANK Fashion Nov 2013 – Oct 2014

- Produced responsive, cross-browser compatible, and pixel-perfect landing pages and web assets in a fast-paced retail environment.
- Collaborated directly with graphic design teams to translate marketing mockups into clean, interactive front-end content.

Web Designer & Developer • Self-employed Jul 2011 – Nov 2013 (Ramsbottom)

- Provided independent design and development services using WordPress, custom PHP, and MySQL for small businesses in both the UK and New Zealand.

EARLY CAREER HISTORY AND EDUCATION

Web Content Editor • Xsortal Ltd Feb 2008 – Jul 2011

Data Administrator • CITV Dec 2005 – Feb 2008

BSc, Computing • University of Leeds Dec 2002 – 2005

PERSONAL INTERESTS & COMMUNITY

Outside of coding I'm a busy parent, avid football fan and F1 enthusiast and I do my best to keep active and enjoy running round my local area — more often than not in the rain and mud. I'm also on a side quest to help sustain our local hedgehog population, monitored with a slowly increasing number of feeding stations, hog houses and wildlife cameras.
